TigerTurf® Landscape Range

TigerTurf Landscape Range

A beautiful lawn is attractive to the eye, a pleasant place that invites you to relax and enjoy the environment, a place where the children and pets can safely play.

Whether you are a homeowner wanting a beautifully manicured lawn, a business requiring attractive landscape and workspaces, a landscape designer looking for a unique solution for your clients or a council needing to provide natural landscapes but are restricted by access, maintenance and water supplies... talk to TigerTurf.

TigerTurf's latest synthetic lawn products have been developed specifically to harmonise with the natural environment. Replicating the characteristics of a quality natural lawn and designed to fit your space, TigerTurf's synthetic turf lawns look superb all year round, for many years, with little maintenance required.

Our natural looking synthetic grasses are second to none

Constructed with good drainage to dry out quickly, manufactured from quality, hard wearing, natural looking fibres and expertly installed, TigerTurf will give you a lawn that looks perfectly manicured all year round, a lawn providing the look and feel of healthy, natural grass – yet offering all of the benefits of the latest synthetic solutions that no other artificial grass company can match. TigerTurf has been extensively tested and has proven to be a safe addition for any home or business...

TigerTurf offers a complete range of grass products to suit all tastes and landscaping requirements. All are visually stunning, allowing you to create outdoor spaces that are realistic, comfortable and safe for children and pets. Along with virtually no maintenance, the key features that make TigerTurf's landscape products perfect for lawns and gardens and other green areas are:

- No watering
- No mowing
- No allergy-causing grass seeds and cuttings
- No fertiliser used
- Lush and green 365 days a year
- Looks and feels like the real thing
- Free of heavy metals
- Constructed with good drainage to dry out quickly
- Child and pet friendly
- UV stabilised to minimise fading
- 7 year conditional warranty

Saving yourself time and money

You will save on the cost of water, fertiliser and purchasing and operating a lawn mower. There are no expensive fertilisers and weed killers to buy and fewer pollutants affecting the environment. TigerTurf also offer those who suffer from seasonal allergies the chance to relax outdoors on a pollen-free lawn!

So, give your garden the makeover it deserves and free up your time to enjoy it. The perfect lawn – always green; always lush – is a TigerTurf lawn!

Transform
Enhance

TigerTurf's Envy – a beautiful, natural looking alternative

TigerTurf's Envy is a beautiful and authentic alternative to natural grass. The medium-to-long blade and high-density thatch result in a wonderful dense green lawn that provides a soft and comfortable feel underfoot.

TigerTurf's Envy is available in two pile heights – 35mm and 44mm.

Perfect around decks, courtyards and swimming pools, TigerTurf's Envy 35 can transform your garden into green areas of tranquillity and relaxation. It is also ideally suited for hard to access areas where maintenance is difficult and water supply is restricted.

TigerTurf's Envy 44 offers a fresh green lawn to relax on and admire. Combining a number of green tones and multiple blades of grass, Envy 44 offers a thick, soft and healthy looking surface.

Manufactured to last

Manufactured from 100% polyethylene monofilament yarn for durability and 100% polypropylene thatch for softness, this specially engineered combination results in a beautiful, natural looking, hard wearing yet soft and lush looking lawn.

It can be installed easily over existing asphalt, concrete or timber or installed on TigerTurf custom built bases. Quality design, construction and installation techniques ensure your TigerTurf surface will remain in good structural condition throughout its life.

Full project management

TigerTurf or its agents can manage the entire project from concept to completion, quickly converting difficult to maintain garden areas into visually stunning outdoor spaces that are realistic, comfortable and low maintenance.

On installation, the grass is part filled with a specially graded sand to maintain the integrity of the pile and to hold the surface in place. Envy is manufactured using the finest TenCate fibres which have been UV tested against colour fade and comes with a 7 year conditional warranty.

What our Customers say:

"I arrived home yesterday to a fabulous new beautiful lawn. What an amazing and quick job the team did in one day! We are already spending more time outside relaxing because it is such a nice space now, thank you."

Sarah
